Just a heads up that the Trustee Council will be sending a letter to LWG this week (will cc you) regarding obtaining a list of archived samples for RI/FS, when collected, how held, etc. We believe these samples may be useful for NRDA purposes and could result in cost savings to the PRPs. I know Rick has talked to you about ensuring these samples are retained and the trustees believe this is important as well. Let me know if you have any questions once you get the letter.
